

Your membership helps save lives

...maybe even yours one day.

183 000 members

190 employees

More than 30 years of experience

Around 50 000 missions

Even and especially in difficult times, LAR is always at your side

› We are there for you when your survival is at stake

Every second counts, when it comes to saving your life or keeping you healthy. The LAR rescue helicopter is the fastest way to bring emergency medical assistance to the scene and to transport the patient to the hospital in the safest possible conditions. As an LAR Member, regardless of whether you live in Luxembourg or in the border region, you show solidarity and help to maintain air rescue services in Luxembourg and the Greater Region.

› A strong partner in difficult times

Since the Ebola crisis, LAR has had the best possible equipment and appropriately trained personnel to transport very sick and highly infectious patients quickly and safely. Thanks to an appeal for donations, Air Rescue was able to further improve the equipment of its fleet in a very short time and to finance the purchase of an „EpiShuttle“ and its installation for the helicopters. Special isolation stretchers were also purchased for the ambulance jets. LAR thus has different isolation systems for the protection of patients and crew.

› Professionals with heart, mind and a lot of experience

Saving lives is the daily mission of the LAR teams. Whether for rescue flights in the greater region or patient repatriations around the world: With over 30 years of experience, competence and quality, we are by your side, with compassion and understanding. LAR's motto "air rescue without borders", is a lived reality at Luxembourg Air Rescue: in December 2020, we have been awarded the 2020 De Gaulle-Adenauer Prize for our exceptional cross-border contribution during the COVID-19 crisis.

› Free repatriation worldwide *

As an LAR-Member, you can travel at ease, knowing that you are not alone. You can rest assured that our experienced and expert personnel are there for you, day and night. Our experts from the 24/7 operated emergency centre will attend to you quickly and competently in the event of a medical emergency abroad. From the first call until your safe return: LAR will bring you back home for free and by the most appropriate type of transportation, be that ground ambulance, commercial airline or in one of our state-of-the-art ambulance jets.
